

# CHAMINADE

COLLEGE PREPARATORY SCHOOL

Grades 6-12 in the Marianist Tradition

As we wind down another year, there are a few announcements the administration would like to share. As you know, Dr. Kralemann will be transitioning into a consulting position next year. She will be overseeing the continued development of our new PACE program.

Regarding Dr. Kralemann's replacement, as the administration evaluated the candidates for her position, they concluded through the process a vision for the future of Chaminade. In the spirit of Adaptation and Change, the Principals Council in consultation with Fr. Ralph, have decided to create a new administrative position. This position will be integral in taking our academic program to the next level.

Starting next year, we will have an Associate Principal of Curriculum and Assessment along with an Associate Principal of Instruction and Mission. This expansion of the administration team will provide leadership to address the new programming that has evolved over the last 20 years and will provide leadership for future programming, which will separate Chaminade from other schools throughout the St. Louis area.

The administration is thrilled to announce that Mr. Brett Desnoyer will provide outstanding leadership in his new role as Associate Principal of Instruction and Mission. Over his many years in the classroom and especially during the last 5 years, Brett has offered a distinct view of professional development that has enhanced our Marianist mission among our faculty. Brett's work with the faculty has provided significant growth in our instruction with a specific overview of Marianist pedagogy. Brett's ability to recognize our teachers' talents within the classroom allows our faculty to provide the best instruction for our students.

We are pleased to announce that Ms. Beth Dunlap will provide exceptional leadership in her new role as Associate Principal of Curriculum and Assessment. Beth's dedication to the advancement of our students' academic work over the last five years has provided her with a unique understanding of our curriculum and the specific academic needs of our students. Her work in creating the Esto Vir Academic Resource Center, which pulled all of our academic resources under one area, has been beneficial to our students and faculty.

We thank all candidates who participated in the process. Their insights revealed the depth of talent within our faculty. We look forward to working with the new administrators to make Chaminade one of the best schools in the area.
